

Clayne Cezclark Nable

09224618682 | n.cezclayne@gmail.com | City of Naga, Cebu, Philippines

SUMMARY

Full-stack developer with a Computer Engineering foundation, IBM-certified in Full Stack Development and Python for AI. Built a Django + React application end to end — REST APIs, authentication, CI/CD, Docker/Kubernetes deployment — and shipped projects spanning embedded systems (ESP32) to real-time game systems in Unity. Comfortable owning a feature from database to UI.

CERTIFICATIONS

- IBM Full Stack Developer Professional Certificate — Django + React capstone application with REST API integration, authentication, CI/CD (GitHub Actions), Docker & Kubernetes deployment
- IBM Developing AI Applications with Python and Flask

WORK EXPERIENCE

Quality Assurance Intern / 240 Hours OJT | *Arielus Software Inc.* Jun 2025 – Jul 2025

- Applied Python and Selenium to develop automated test scripts, improving test efficiency
- Gained hands-on experience with industry-standard QA processes in a professional development environment
- Applied Agile/DevOps methodologies and technical accounting terms to enhance cross-functional collaboration

PROJECT EXPERIENCE

Anito (Unity) | *Project Manager / Backend Developer* Sep 2025 – Present

- Led team development workflow, task delegation, and feature integration as project leader
- Engineered a real-time combat system with precision hit detection, dynamic damage handling, and scalable state machines
- Built a projectile system using particle systems for efficient rendering and visual consistency
- Developed shader graph VFX for combat feedback (damage and enemy death)

RemGlove (ESP32 / Flutter) | *Embedded Systems / Backend Developer* Aug 2025 – May 2026

- Built a Flutter/Dart Android app with Firebase integration, real-time 3D rendering (Three.js), and AI-generated usage summaries via the Gemini API
- Engineered a gesture-controlled smart glove translating 15 static ASL configurations into wireless commands via flex sensors and ESP32, achieving 94% recognition accuracy across 150 trials
- Architected a multi-protocol system (BLE, MQTT/HiveMQ, IR/NEC) sustaining $\geq 95\%$ BLE delivery to 8m and 100% IR reliability to 4m
- Implemented per-user calibration and dual hold-time scheme (800ms/2,000ms) enabling a universal-fit design

TECHNICAL SKILLS

C, C#, C++, Python, GDScript, Dart, HTML, CSS, JavaScript, MySQL, Arduino, ESP32, Selenium, Flutter, Unity, Godot, Azure DevOps, Figma, GitHub, Premiere Pro, Photoshop, Canva, Aseprite

SOFT SKILLS

Time Management, Communication, Documentation Review, Data Analysis, Flexibility, Adaptability, Teamwork

EDUCATION

Bachelor of Science in Computer Engineering (BSCPE)

Cebu Institute of Technology - University

ACHIEVEMENTS

- City of Naga Scholar, Batch 9
- Rank 17th out of 150 Passers, S.Y. 2022–2023
